**Environment and Energy Usage**

The Environment and Energy usage Policy of Shri Madhav College of Education & Technology, Hapur is to manage energy in such a systematic way so as to minimize its impact on the environment. The policy implies to explore the renewable energy resources to reduce the burden of the government and to fine out substitute natural resources as solutions to the energy crisis. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage.

**Policies :**

- To assess our energy usage and measure its impact on the environment.
- To reduce local air pollution emissions using bicycle, use of pedestrian-friendly roads.
- To install LED bulbs in the complete campus to save energy.
- To develop systematic waste management mechanism.
- To undertake tree plantation drive.
- To ensure the availability of necessary resources to achieve our objectives.
- Actively work with the local organizations in the areas of environment, energy efficiency and sustainable development.
- To monitor and respond to emerging environmental and energy issues. To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance.
- To offer opportunities for employees and students to engage in initiatives those contribute to environmental protection.

This policy will be communicated to the students and employees via internal communication channels. The Environment and Energy Policy, objectives and targets will be reviewed on a regular basis by the Principal of the college.
